FOOTHILLS FARMS

Barry and Lindsay Crouse have been producers for Steer, Inc since 2024 starting with five head and increasing slightly each year. Seeing the incredible blessings that raising cattle for missionaries through Steer, Inc. has encouraged them to create the Adopt a Cow program so that even more funds may be sent into the mission field.

STEER Inc. has long been at the forefront of uniting farmers and ranchers in the cause of advancing global missions.

It is a non-denominational Christian global missionary support organization that currently supports 89 member mission organizations. Founded in 1957, STEER has distributed over 39 million dollars to help fulfill Christ's command to make disciples of all nations. (Matthew 28:19)

why adopt a cow?

Your investment in adopting a cow is almost guaranteed* to double each year. This provides even more funding for your missionary to utilize in their work for the Kingdom.

**Nothing is a guarantee, however $50 a month equals $600 a year. Weaned calves prices have steadily increasted over the last five years nationwide. In that same amount of time we have sold calves for $1,500-$2,800 per calf.*

how it works

1 Steer, Inc purchases a cow through the Legacy Fund, then places it with Foothills Farms for care.

2 The cow is adpoted by a family or individual who agrees to cover it's cost in feed and care. Foothills Farms donates labor, equipment and faciilites needed.

3 Once the adopted cow's calf is old enough to wean, it is sold and the proceeds are sent to Steer Inc.

4 Steer, Inc sends 100% of the proceeds from the sale of the calf to the affiliated mission chosen by the adopting family or individual.
